

NEBULA

Dear All,

Last year we got a sample of polymer glue FLY Luxe.

As a balloon shop owner, it was interesting for us to try something new.

We compared FLY Luxe with similar additives for a longer flight of balloons on the market before we made the first order. The result satisfied us!

From the spring of 2018, we are proud distributor for FLY Luxe in Croatia.

In the short term, FLY Luxe uses more than 50% balloon stores here.

In the future, we expect an increasing market share here in Croatia,

because FLY Luxe has a lower price and better quality than similar additives.
